RE: NPDES Stormwater Construction General Permit, OBU Closure, East Camden, AR
Permit Tracking No. ARR153103 AFIN 07-00035

Dear Mr. Leonard:

The initial permit fee and Notice of Intent (NOI) for coverage under Stormwater Construction General Permit No. ARR150000 were deemed complete on 9/28/2009. For tracking purposes, the project has been assigned permit tracking number, ARR153103. Please use this number in all future correspondence related to this construction project.

The Stormwater Pollution Prevention Plan (SWPPP) has been reviewed and all elements required by the SWPPP checklist were included. Please note that review of the SWPPP does not constitute **approval**. The permittee must comply with all the requirements of the NPDES Stormwater Construction General Permit No. ARR150000. Additionally, the permittee may modify the SWPPP as necessary to protect the Waters of the State from erosion and/or sediment runoff.

Based upon the information submitted in the NOI and SWPPP, this permit tracking number only applies to the acreage that was originally reviewed by the Department. If additional acreage is required, a revised site map containing the additional acreage and meeting all the permit requirements set forth in Part II.A.4.a.v. of the Construction Stormwater General Permit must be submitted to the Department for review prior to any construction activity taking place on the requested acreage.

Please find enclosed for your use: the construction site permit authorization letter, a copy of the general stormwater runoff permit, and a Notice of Termination (NOT). If you have any questions concerning this matter or need additional information, please feel free to contact Nick Willis, NPDES Stormwater Engineer at (501) 682-0619 or myself at (501) 682-0616.

Sincerely,

Mo Shafii
Assistant Chief, Water Division
