Tim,

The most recent "Streamlining" modifications/revisions to Harrison's Pretreatment Program are hereby approvable per provisions in 40 CFR 403.11 on the date of 1/9/17. Since your Pretreatment modifications were the same published in the Federal Register October 14, 2005 @ <https://www.gpo.gov/fdsys/pkg/FR-2005-10-14/pdf/05-20001.pdf>, no ADEQ public notice was necessary according to EPA Headquarters.

The above date and appropriate "Streamline Approved" (Pre-2a) language will be reflected in Harrison's next Permit.

This office appreciates your efforts to bring this process to a finish.

Sincerely,

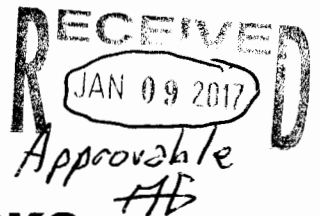

Allen Gilliam
