ATTN: John Overbey, American Interplex Lab Director

Sherman Bros is required to comply with the federal pretreatment standards in 40 CFR 442.15. The following is an excerpt from the Federal Regulations showing the parameters required:

Table – Pretreatment Standards

Regulated parameter	Maximum daily 1
Non-polar material (SGT-HEM)	26

Copper	0.84
Mercury	0.0031

1 Mg/L (ppm).

Please note that the facility must test for Non-Polar Material (SGT-HEM). This parameter is defined in 40 CFR 442.2(b)(9) as “*Non-polar material (SGT-HEM)* means the non-polar fraction of oil and grease (Silica Gel Treated Hexane-Extractable Material) measured by Method 1664.”

Let me know if you have questions or concerns.

Rufus J. Torrence, ADEQ Engineer
