March 27, 2006

**Mike Webber, President
American Polishing, Inc.
Box 826
Salem, AR 72576**

Dear Mr. Worsham:

The City of Salem gives American Polishing permission to dump vibratory finishing waste water into the city sewer system, providing that the test results remain in the perimeter of ADEQ guidelines for pre treatment. Said testing should include testing for aluminum, chromium, copper, lead, zinc, and ph.

Sincerely,

Bill Worsham
