**Attachments:** paint report2.pdf; paint report.pdf

Rick,

Intimidator's June 2016 semi-annual Pretreatment report was electronically received late, reviewed, deemed complete and compliant with the reporting requirements in 40 CFR 403.12(e) and more specifically compliant with the Metal Finishing pretreatment standards in 40 CFR 433.17.

As mentioned in previous phone calls, if you need any help or further guidance developing/submitting a toxic organic management plan (TOMP) "in lieu" of monitoring for the list of toxic organics in 40 CFR 433.11 please feel free to call. I believe the EPA guidance manual for developing an approvable TOMP and the examples provided should help you understand what is required.

No further action is deemed necessary at this time, but please remember your semi-annual reports are due "during the months of June and December".

Sincerely,

Allen Gilliam
