Kevin,

Your June 2011 semi-annual Pretreatment Report was electronically received, reviewed, deemed complete and compliant with the National Pretreatment Regulations in 40 CFR 403 and more specifically the Metal Finishing Pretreatment Standards for New Sources in 40 CFR 433.17. No further action is deemed necessary at this time.

In the future, please include the ADEQ's certified lab's analytical results page. Their QA/QC sheets are not necessary unless a parameter is "flagged" for some reason. Your lab should be able to scan these to you for you to also attach them with these semi-annual reports.

Thank you for your cooperation in remaining compliant with the National Pretreatment Program and timely submittal of your semi-annual reports.

Sincerely,

Allen Gilliam
