Subject: EZ Loader Boat Trailers, Inc. - ARP001055 (Mountain Home - AR0021211) - Semiannual Report & CAP Response

Mr. Jackson,

DEQ has received EZ Loader Boat Trailers, Inc.'s ("EZ Loader") (Pretreatment ID ARP001055) semiannual pretreatment report for the January 1, 2023, through June 30, 2023 reporting period and a Corrective Action Plan (CAP) for zinc exceedances that were reported in December 12, 2022, and January 3, 2023.

The submitted semiannual report has been reviewed, and is deemed complete and compliant with the reporting requirements in 40 C.F.R. § 403.12(e). Additionally, the CAP included the installation of a larger filter; cleaning of the wash bay, sump, and tanks; and operator training on care, maintenance and operation of the wastewater treatment system. Further, EZ Loader conducted sampling prior to and following the installation of the new filter system and cleanouts and provided DEQ of the analytical results of the sampling that was conducted. No issues were discovered with the CAP. DEQ accepts this CAP and believes that the issues that were present with zinc exceedances have been resolved.

Please continue to implement the changes that were made within this CAP and reach out if you need any assistance.

Thank you,

Jamie Belcourt | Pretreatment Coordinator
