Administrative Assistant  
NPDES Enforcement Section

Re: 2008 Pretreatment Performance Summary (PPS)  
NPDES Permit: AR0021776, AFIN: 31-00036

Dear Ms. Roberts:

Enclosed you shall find the city's Pretreatment Performance Summary for the year 2008. Our Local Limits are being calculated by NRS, Engineering a firm in Hot Springs on Tuesday, February 24, by Jeremy Stone. They are working on changes to our Ordinance for pretreatment also. When those are completed we will contact your office and Allen Gilliam, State Pretreatment Coordinator. If you have any questions of concern, please call at 870-845-4015.

Sincerely,

A handwritten signature in cursive script that reads 'Larry Dunaway'.

Larry Dunaway  
Public Works Director

enclosure (1)

cc: Allen Gilliam, State Pretreatment Coordinator  
NPDES 2009 Pretreatment File

(1) It is advised that the influent and effluent samples are collected considering flow detention time through each plant. **Analytical MQLs must be met for the effluent (and SHOULD be met for the influent) so the data can also be used for Local Limits assessment and NPDES application purposes.**

(2) This value was calculated during the development of TBLL based on State WQ criteria, EPA guidance and either ADEQ Pretreatment staff Excel spreadsheets or the Permittee's consultant with concurrence from Pretreatment staff.

(3) Record the name of any pollutant [40 CFR 122, Appendix D, Table II and/or Table V] detected and the concentration at which they were detected.

MAHL - Maximum Allowable Headworks Level / MAHC – Maximum Allowable Headworks Concentration

WQ - "Water Quality Levels not to exceed" OR actual permit limit.

\* Local Limits are in the process of being calculated (if needed) by Jeremy Stone of NRS, Engineering in Hot Springs.

The influent results may be elevated due to sampling techniques.  
Strainer location at the bottom of the pit in the sludge.
