Subject: AR0021776_Nashville Feb 2012 Annual Pretreatment Report reply_20120228

Ed,

Your February 2012 annual Pretreatment Report handed to me on 2/24/12 during your Program audit was reviewed, deemed complete and compliant with the Federal Pretreatment Regulations in 40 CFR 403.12(i). No further action is deemed necessary at this time.

Note: On Attachment A, the "Updated Significant Industrial Users List", the last column on the right entitled "Permit Limits" are your industries' permit limits. In your case, Jan-Eze's permit limits are taken from the Metal Finishing Standards in 40 CFR 433.17. During the Audit it was determined Jan-Eze had no permit limit violations so this office will place "C" in that column.

Since Aero-Metal is permitted as a no-discharger, and it was confirmed as best as possible they had been shipping all wastewater off-site, I'll also place a "C" in their "Permit Limits" column and initial it.

Your Program's audit report will follow shortly.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
