Attachments: pret ordinance corrected checklist '08.doc

Larry (and Sheila),

Your Ordinance submittal was electronically received on 2/15/12. I've saved it to my hard drive and will review, make comments, recommendations and suggestions once I find some time to devote to it.

I've just briefly perused it and it appears in the order of EPA's Model Pretreatment Ordinance.

The only document missing is the attached Ord. checklist. Would you please take the time to go back through the Ordinance and identify the Sections where the Model Ordinance provisions are located? It would take this office less than a week to review the entire document with this additional "checklist". It's hoped I can pick this up after your audit late next week.

All Pretreatment cities in the State were given this checklist with the instructions to please fill it out, but evidently you did not have it.

Thank you,

Allen Gilliam
ADEQ State Pretreatment Coordinator
