Re: Nashville's (NPDES #AR0021776; AFIN # 31-00036) Submittal of the Draft Pretreatment Program Ordinance Modifications per the Pretreatment Streamlining Revisions in 40 CFR 403 First Review

Dear Mr. Dunaway,

A review was completed of your Pretreatment Ordinance Modifications to be current with the Streamlining Revisions to the National Pretreatment Regulations in 40 CFR 403.

A final modified Pretreatment Ordinance based on this office's recommendations/comments must be re-submitted for final approval by ADEQ within sixty (60) days from receipt of this correspondence, preferably by attaching it to an e-mail (in MS Word format) to this office.

A copy of the revised ordinance with this office's recommendations/comments is attached. A color coded one will follow via an e-mail attachment (in MS Word, version 10) for ease in identifying these recommendations/comments to make subsequent changes. It is understood this will expedite the City's adoption of the new Pretreatment Ordinance.

Most recommendations/comments were to use EPA's model Ordinance language released in January of 2007.

It is understood the rest of the City's Pretreatment Program's modified narrative will be electronically submitted (in MS Word) to ADEQ for its first review soon. That submittal will be due ninety (90) days after this office's final review and approval of the City's Pretreatment Ordinance.

If there are any questions or comments, please feel free to contact this office.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
501.682.0625
