RE: NPDES Permit AR0021776 – Technically Based Local Limit Certification

The purpose of this letter is to provide written certification that a technical evaluation of existing technically based local limits (TBLL) has been conducted in accordance to NPDES Permit AR0021776 Part I Section B.1. and Part II Item 7.B. Certification of Technical Evaluation by a State of Arkansas Registered Professional Engineer is enclosed with this letter.

In accordance with Permit AR0021776 Part III Section D.11.C:

“I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with the system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true and accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.”

Re: Certification of Technical Evaluation
Technically Based Local Limits
City of Nashville Wastewater Treatment Plant
Nashville WWTP - NPDES Permit No. AR0021776
AFIN: 31-00036
Nashville, AR

Dear Mr. Dunaway:

In accordance with the above referenced NPDES Permit, this letter shall serve as certification that Civil Engineering Associates, LLC has performed a technical evaluation of the existing technically based local limits (TBLL). This letter shall also certify that the existing TBLL's are based on current state water quality standards and are adequate to prevent pas through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination.

If you have any questions or need additional information, please call.

Sincerely,
Civil Engineering Associates, LLC

Trey Foster, P.E.
Project Manager
