Re: Little Rock Wastewater's (LRW) Request for Review of Hazardous Waste Notification Requirements and Extension of Deadline (NPDES #AR0021806; AFIN #6000409)

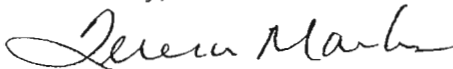

Dear Mr. Corbitt:

This letter is being written in response to your February 18, 2009 correspondence concerning a requirement for LRW to send hazardous waste discharge notification letters to area Doctors, Dentists, Medical Clinics, Nursing Homes, Veterinarians, and any and all potential hazardous waste generators. The intent of the November 25, 2008 email was to help the City identify and locate all possible industrial users which might be subject to the POTW Pretreatment Program referenced in 40 CFR 403.12(p).

In your letter you stated that "LRW has sent these notifications in the past and feels strongly that we have met the requirements." If you believe your industrial users are in compliance with the requirements of 40 CFR 403.12(p), then no additional information is needed at this time.

If you have any further questions or comments, please feel free to contact Mo Shafii, Assistant Chief, Water Division of my staff at (501) 682-0616 or by email at [shafii@adeq.state.ar.us](mailto:shafii@adeq.state.ar.us).

Sincerely,

Teresa Marks  
Director
