**RE: NPDES Permit AR0021806 - Technically Based Local Limit Certification**

The purpose of this letter is to provide written certification that a technical evaluation of existing technically based local limits (TBLL) has been conducted in accordance to NPDES Permit AR0021806 Part I Section B.1. and Part II Item 7.B. Certification of Technical Evaluation by a State of Arkansas Registered Professional Engineer is enclosed with this letter.

In accordance with Permit AR0021806 Part III Section D.11.C:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with the system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true and accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

RE: Certification of Technical Evaluation  
Technically Based Local Limits  
Little Rock Wastewater  
Adams Field WWTP - NPDES Permit No. AR0021806  
AFIN: 60-00409  
Little Rock, Arkansas

Mr. Corbitt:

In accordance with the above referenced NPDES Permit, this letter shall serve as certification that Oswald Engineering, Inc. has performed a technical evaluation of the existing technically based local limits (TBLL). This letter shall also certify that the existing TBLLs are based on current state water quality standards and are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination.

If you have any questions or need any additional information, please contact us.

Sincerely,

OSWALD ENGINEERING, INC.  
Fred M. Oswald, P.E.  
President

Jeff,

The documents handed me this morning by yourself satisfies LRW's permit requirements stating, "The permittee shall submit, within sixty (60) days of the effective date of this permit, (1) a WRITTEN CERTIFICATION that a technical evaluation has demonstrated that the existing technically based local limits (TBLL) are based on current state water quality standards and are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination." (attached)

Thank you for your timely certification.

Sincerely,

Allen Gilliam  
ADEQ State Pretreatment Coordinator
