**RE: NPDES Permit No: AR0022039; AFIN: 18-00879
Submission of Local Limits Received**

Dear Ms. Bosnick,

The Department is in receipt of your letter dated November 27, 2018 addressing the submittal of local limits in accordance with Part II Condition 7.B of the subject permit. This letter was received via e-mail by Adam Yates, State Pretreatment Coordinator. The submittal was reviewed by the Department and deemed adequate.

Should you have any questions, please feel free to contact me at 501-682-0649, or you may e-mail me at rathe@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink that reads "Rebecca A. Rathe".

Little Rock, Arkansas 72118-5317

Re: AR 0022039 AFIN: 18-00879

As required by Part II (7)(b) of the above-mentioned permit, we have performed a technical evaluation demonstrating that the existing technically based maximum allowable headworks loading (MAHL) are based on current state water quality standards. The last two years data used for the evaluation and compared to water quality standard numbers and CFR 503 Sludge Regulations.

We are certifying that the MAHL's Currently in the Pretreatment Program are based on current water quality standards and are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility and local limits are not necessary at this time.

If you have any questions, please contact Denise Bosnick at (870) 702-5141.

Sincerely,

Todd Pedersen
General Manager
