**Attachments:** ADEQ Letter for permit Oct 2014.pdf

Pam,

The attached certification satisfies the provision in Section 8.b., Page 4 of Part II of your NPDES permit.

Thank you for your timeliness.

Sincerely,

Allen Gilliam  
ADEQ State Pretreatment Coordinator

RE: Certification of Local Limits based on Current Water Criteria

Dear Ms. Bolenbaugh

We certify that a technical evaluation has demonstrated that the existing technically based local limits (TBLL) are based on current state water quality standards and site specific data are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination. We accept the MAIL's, MAHL's and WQ levels calculated for us by ADEQ personal and agree that local limits are not necessary at this time.

Thank You

Gregg Rainey  
Superintendent
