Nancy,

Your November 2012 annual Pretreatment report was received, deemed complete and compliant with the Federal Pretreatment Regulation's POTW reporting requirements in 40 CFR 403.12(i).

There are no further actions deemed necessary at this time.

Please keep this office informed of Kraft's disposition as they begin closing their operations. I have an example closure plan (attached) which is not required, but a document that may be prudent to have Kraft fill out for your files. Requiring them to complete and submit this form may help ensure the facility will not slug load your wastewater treatment plant with waste chemicals or unusable product as they dismantle their equipment and clean out their inventory.

Sincerely,

Allen Gilliam
