Re: Blytheville (NPDES # AR0022560 Haz-Waste Notifications)

Dear Mr. Gilliam,

Enclosed is the City of Blytheville's Hazardous Waste list, Newspaper publication, and a copy of a formal letter mailed to each listed.

If you have any questions or need more information, please contact me at (870) 763-4961.

Sincerely,

A handwritten signature in black ink, appearing to read "James Yankee". The signature is fluid and cursive, with a large, sweeping flourish at the end.

James Yankee
Pretreatment Coordinator

BLYTHEVILLE WASTEWATER DEPARTMENT

NOTICE

Attention: ALL INDUSTRIAL/COMMERCIAL USERS OF THE CITY'S SEWER SYSTEM

Re: Hazardous Waste Notification Requirements under the National Pretreatment Program

Some business's has been identified as one that potentially generates Hazardous Waste as defined under the Federal Regulations at **40 CFR 261**.

Under the specific pretreatment requirement in **40 CFR 403.12(p)(1)**, "The Industrial User [non-domestic user] shall notify the Blytheville Wastewater Department, the EPA Regional Waste Management Division Director, and State hazardous waste authorities in writing of any discharge into the City of Blytheville sewer system of a substance, which, if otherwise disposed of, would be a hazardous waste under **40 CFR part 261**."

Under **40 CFR 403.12(p)(4)**, "In the case of any notification made under paragraph (p) of this section, the Industrial User shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical." The full requirement with exemptions can be found at the following website address: http://edocket.access.gpo.gov/cfr_2003/julqtr/40cfr403.12.htm .

Many of you may be unaware of this notification requirement, but it has recently come to our attention through numerous national studies and reports that Hazardous Waste may be generated and disposed of from your business sector into the City's sewage collection system.

At this time, the City will be specifically targeting mercury from amalgam, silver from spent film processing wastes and hazardous waste pharmaceuticals.

If your facility does not have an amalgam separator, silver recovery unit or a system of properly disposing of Hazardous Waste Pharmaceuticals, you may be discharging Hazardous Waste into the City's sewage collection system and must follow the above cited Pretreatment Requirement.

Mailings will go out to the above cited facilities. Please make this notification within thirty (30) days of the date on this correspondence in writing to the **Blytheville Wastewater Department, P.O. Box 1784, Blytheville, AR 72316, Troy Hill / US EPA REGION 6 / 1445 Ross Avenue / Suite 1200 / Mail Code: 6PD / Dallas, TX 75202-2733, and Ryan Benefield / ADEQ Hazardous Waste Division / 5301 Northshore Dr. / N. Little Rock, AR 72118.**

If no response is received within the thirty (30) day period, your facility may be subject to a site specific inspection.

For Further Information:

General questions about the requirements should be directed to James Yankee, Pretreatment Coordinator, (870) 763-4961.

Questions about whether your waste is hazardous should be directed to the Arkansas Dept. of Environmental Quality. (501) 682-2199
