Re: NPDES #AR0022560 Pretreatment Program Audit/Municipal Pollution Prevention (P2) Assessment

Dear Mr. Gilliam:

This is to advise you that we will be cross training in the Pretreatment Coordinator job and we are committed to making our pretreatment program work, as it should. In speaking with Kenneth Ellis, superintendent of our city's Wastewater Department, we will be implementing a more effective grease trap program and pollution prevention activities citywide.

In addition, we will be updating all user files to become current with 40 CFR 403, and modifying the current pretreatment program to include the streamlining regulations. According to Mr. Ellis, we should be able to reach these goals in a timely manner. We will be submitting to you the Ordinance changes for approval.

If you should have any questions pertaining to these matters, please feel free to contact Mr. Ellis or myself at (870) 763-3602.

Sincerely,
