Subject: AR0033979_Darling ARP00999911 July 2012 Semi Annual Pretreatment Report Reply_20120716

Mark,

Your July 2012 Semi-Annual Pretreatment Report was received, reviewed, deemed complete and compliant the Federal Pretreatment Regulations in 40 CFR 403, specifically the Metal Finishing limitations in 40 CFR 433.17. No further action is deemed necessary at this point in time.

Note: In the future please include a complete chain of custody (C of C). The C of C attached to your report only showed who took the sample. It did not indicate who it was "relinquished by; received by", etc., to the final destination ("received by"): your contract lab. A "broken" chain of custody's analytical results may not be admissible in a court of law. You may want to contact your certified lab to understand what else is required to make up a complete C of C.

Thank you for your timely report remaining in compliance with the Federal Pretreatment Regulations.

Sincerely,

Allen Gilliam
ADEQ Pretreatment Coordinator
