Subject: AR0033979_LA Darling ARP00011 Sept 2015 cessation of CFR 433 federally regulated processes_20121211

Thanks Andy,

On this date, and based on your statements below, I will move LA Darling's (Corning) tracking permit # and associated information to the "Shut Down" level on my internal tracking list of "Non-pret. city CIUs reports" list. I will include LA Darling's last semi-annual report in January, their last normal reporting month as you see fit along with the notice they shut down all Federally regulated processes on September 30th, 2015.

Thank you for the re-notification,

Allen Gilliam

Thank you for the communication Allen!

I will find the email, and re-send it to you.

Basically, the Darlng Corning plant stopped actual production work on September 30th, 2015. However, they have continued to ship product from that plant utilizing a very minimal crew.

I was going to wait until ALL operations (including the shipping operations) were complete, before sending you the official notification.

I was also planning to simply wait until the normal January time-frame to send the final Semi-Annual Report.

Obviously, I have the analytical data, and will be glad to prepare the final Semi-Annual Report and get that to you, once Darling Corning has completely stopped all operations at the plant.

I will let you know once all activity at the plant has ceased.

Again, thank you so much for the communication!

Take care,
Andy Stickler

Andy,

Hope this missive finds you and yours well.

A computer glitch wiped out all of my past emails including the one you sent saying LA Darling ceased ops, but you were going to send a report w/analysis and statement LA had ceased ops on such and such date.

Would you please re-send the initial one (don't even know when you sent it) and the final semi-annual(?) report so I can close LA's file out?

Thanks and have a merry Christmas.

Sincerely,

Allen Gilliam
