Aaron,

Thank you for the report showing 40 CFR 136 methods were used, not the hazardous waste ones in 40 CFR 261.

Your report has been logged in as complete and compliant with the Pretreatment Regulations and standards in 40 CFRs 403 and 433. No further action is necessary.

Thank you again for a timely response.

Sincerely,

Allen Gilliam

Subject: Re submission Oct. DMR Report

As requested we have retested and submitting the correction to our report. I included a copy of the e-mails received Oct. 28 and Oct. 27 indicating there was a problem with the report we submitted. This should close the finding.
