Subject: AR0036692_Nidec Oct 2016 semi annual Pretreatment Report adding ancillary ops_20161018
Attachments: DMR Oct Signed 2016.pdf

Aaron,

Nidec's October 2016 semi-annual report was electronically received, reviewed, deemed complete and compliant with the reporting requirements in 40 CFRs 403.12(e) & (j) ["Notification of changed Discharge."] and more specifically with the Metal Finishing standards in 40 CFR 433.17. No further action is deemed necessary at this time.

The bypass of high pH wastewater has already been addressed in previous emails and as per our phone conversations yesterday, I believe we're "on the same page" regarding sampling times.

Thank you for your timely report in addition to the remarks regarding added ancillary operations (Laser Beam Machining and Heat Treating) under 40 CFR 433.10 (even though you've indicated there would be no wastewater discharged to the City from the additional systems).

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
