A survey of the Plant and a review of all MSDS found Toxic Organics in the above referenced products. A evaluation of thier usage was conducted and found none of these products enter the waste strem to the POTW. All plant floor drains have been seled by Street & Performance Inc. There is 4 spill kits located wi thin the plant.

"Based on my inquiry of the empolyees directly responsible for managing compliance with with the pretreatment standard for Total Toxic Organics (TTO), I certify that, to the best of my knowledge and belief, there has been no dumping of any concentrated toxic organics into the wastewaters since filing the last discharge report. I further certify that this Facility is implementing TTO plan submitted to the Arkansas Department of Enviromental Qual i ty".

"I certify under penalty of law that the information submitted herein, to the best of my knowledge and belief, to be true, accurate and complete".
