Subject: AR0043397_Rogers Jan 2012 Annual Pretreatment Report reply_20120130

Paul,

Your January 2012 annual Pretreatment Report was electronically received, reviewed, deemed complete and compliant with your reporting requirements in 40 CFR 403.12(i). No further action is deemed necessary at this time.

Thank you for your timely and comprehensive report remaining compliant with your reporting requirements in the Federal Pretreatment Regulations in 40 CFR 403.

Comment: On page 14 where you've summarized surcharges, these should not be titled "Penalties". Penalties would be for limits' violations. Your surcharges are for collecting monies from facilities discharging "extra/high strength" conventional pollutants, correct? These monies aren't collected for violating permit limits are they?

Unless you show a need and have developed Local Limits for these conventionals, you won't have any violations unless you identify a User who has slug loaded your POTW with one of these conventionals causing pass-through or interference. Sorry, I should have noticed this while I had you on the phone yesterday.

If you have any questions or comments please feel free to contact this office.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator

Allen,

The annual pretreatment report is attached. I corrected the top of page 5 and the formatting of the table on page 12. Please let me know if you have any questions or comments.
