Subject: AR0046566_Industrial Metal Finishing #2 (ARP001024) Oct 2011 Semi Annual Pretreatment Report Response_20111110

Brian,

Your October 2011 Semi-Annual Pretreatment Report was received, reviewed, deemed complete and compliant with the Federal Pretreatment Regulations in 40 CFR 403; more specifically the Metal Finishing Standards in 40 CFR 433.17. No further action is deemed necessary at this time.

As this is a new facility you are still building a customer base for, it is advisable to sample/analyze any discharges of regulated wastewater as orders come in. In this way you will have a record of Pretreatment Standards' compliance on-hand in case there is no production or wastewater produced during your next semi-annual report month (due date is during the month of April of 2012).

Good luck with your "new" facility. Please keep this office apprised of your increasing customer orders for Zinc plating.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
