Subject: AR0046566_Industrial Metal Finishing #2 (ARP001024) Toxic Organic Management Plan (TOMP) Submittal and Review_20110228

Brian,

Your Toxic Organic Management Plant (TOMP) for your new facility is acceptable to ADEQ and satisfies EPA's guidance regarding certification in lieu of monitoring under 40 CFR 433.12(b).

If discharge of regulated wastewater to the City's sewer system has begun from your new facility, the second document you sent requires a signature for this procedure to be complete. Please submit via an e-mail attachment within five (5) working days if this is the case.

Once that signed document is received, according to 40 CFR 433.12(a), you may begin submitting signed certification statements in lieu of monitoring for the toxic organics in 40 CFR 433.11 on future semi-annual reports.

Your initial Baseline Monitoring Report was received and deemed complete on 7/29/11. If your new processes and pretreatment systems are currently at static working conditions you may submit your new facility's semi-annual report along with IMF #1's semi-annual report and satisfy (early) the second report required under 40 CFR 403.12(d), "Report on compliance with categorical pretreatment standard deadline. Within 90 days following the date for final compliance with applicable categorical Pretreatment Standards or in the case of a New Source following commencement of the introduction of wastewater into the POTW, any Industrial User subject to Pretreatment Standards and Requirements shall submit to [ADEQ] a report containing the information described in paragraphs (b) (4)–(6) of this section..." (See <http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?c=ecfr&sid=7468ebf5fe7316f4384087e6d42cec48&rgn=div8&view=text&node=40:29.0.1.1.4.0.1.12&idno=40>).

As a side note: For convenience, I've identified your original facility as Industrial Metal Finishing Inc. #1 and your new facility as Industrial Metal Finishing Inc. #2 for filing and tracking purposes. You'll notice your tracking numbers (ARP001023 [IMF #1] and ARP001024 [IMF #2]) also separate your facilities for filing and tracking purposes. Any future correspondence from you should reference these tracking numbers according to which facility you are referring to.

Thank you for your cooperation in remaining compliant with the Federal Pretreatment Regulations, specifically the Pretreatment Standards in 40 CFR 433.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
