**Re: Semi-Annual Leachate Report - First Half 2024
NABORS Landfill, Mountain Home, Arkansas
ADEQ Permit No. 0249-S1-R2, AFIN 03-00051
Wastewater Contribution Permit No. 593**

Dear Ms. Mack:

The Division of Environmental Quality – Office of Land Resources (DEQ) is pleased to fulfill the reporting obligations of Wastewater Contribution Permit #593. This letter serves as our no-discharge report for the North Arkansas Board of Regional Sanitation (NABORS) Landfill facility during the first half of 2024. Enclosed, please find a completed and signed Semiannual Period Certification Statement, submitted in accordance with the signatory requirements outlined in Wastewater Contribution Permit #593.

For this six-month reporting period, there was a total of zero (0) gallons of leachate hauled to the City of Springfield wastewater treatment plant. Since no leachate was discharged to the City of Springfield, there is no data to report for the semiannual monitoring. The DEQ submits this report in adherence to the reporting requirements specified in the aforementioned permit.

If you have any questions or require further clarification, please do not hesitate to contact me via phone at (501) 682-0836 or by email at clay.mcdaniel@arkansas.gov.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in blue ink that reads "Clay McDaniel".

Nabors Landfill Discharge Monitoring Report Certification Statement

Semiannual Period: ☒ January - June ☐ July - December

Year: 2024

Total Semiannual Volume of Deicing Wastewater From Facility (Gallons) Zero

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

All samples and measurements taken are to the best of my knowledge representative of the permitted wastewater discharge.

All sampling, measurements, and analyses were conducted in accordance with guidelines prescribed in 40 CFR 136 and the Wastewater Contribution permit obtained from the City of Springfield, Missouri."
