Importance: High

Good Afternoon Casey,

Here is the email what we discussed when I got the report for my explosive gas report. The Report also reflected the same day. We are working on the gas collection expansion as well as the items you gave us on yesterday. I should have pictures on Monday for you on the progress of the Leachate leaks. We are working to the Design for the new 8 Extraction Wells for the gas. I have attached the map we discussed on yesterday. The Wells in red are the proposed wells for install the locations could possibly change. The Wells in green are the existing wells. Let me know if you need anything else.
