Re: Class II Landfill Closure
Permit No. 0132-SR-1
CSN 35-0116

Dear Ms. Dickson:

This is to notify you that closure of the referenced landfill has been accepted by the Department. The two-year maintenance period for the facility began on November 2, 1994, the date of an ADPC&E inspection confirming proper closure.

In accordance with the provisions of the Arkansas Solid Waste Management Code, the following post-closure activities should be performed at the site for a period of at least two years:

1) Mow the vegetation on the closed site to control undesirable annual weed and woody vegetation growth and to facilitate proper inspection of the cover.

2) Maintain the integrity and effectiveness of the final cover, including making repairs to the cover as necessary to correct the effects of settlement, subsidence, erosion, or other events, and preventing run-on and run-off from eroding or otherwise damaging the final cover.

3) Take any additional measures deemed necessary to protect human health and the environment, except that the permit holder's liability will be limited to the provisions of Act 1127 of 1993.

4) The Department reserves the right to extend the two year post-closure care period in the event that the permit holder
Letter to Ms. Dickson  
November 3, 1994  
Page 2 of 2

has not met the obligations of conditions 1 and 2 above, or if, in accordance with condition 3, circumstances at the site warrant continued care of the facility.

Acceptance of the closure means that the facility has met the requirements of 40 CFR § 258 and is eligible for coverage in the Landfill Post-Closure Trust Fund established by Act 1127 of 1993.

If you have any questions or comments, or if I can be of service please call me at 570-2853.

Sincerely,

Steve Haralson, P.E.  
Solid Waste Division

cc: Sam Clardy, District Field Inspector
