Re: Sunray Services, Inc., Transfer Station
AFIN: 72-00144 Permit Number: 0023-SG-TSW

Dear Mr. Dunbar:

In response to your letter dated January 31, 2003, regarding the above referenced facility, the following conditions need to be met to maintain the facility permit in active status:

1. We are in receipt of payments not invoiced for the years 1998 (\$200), 1999 (\$200), 2000 (\$450), 2001 (\$450) and 2002 (\$450) totaling \$1,750.
2. The SWMD is aware of an ownership change that affected the ownership of the transfer station. Therefore, please submit a *Request for Solid Waste Permit Transfer or Name Change Form*.
3. When you reactivate the facility at the present location, you must submit all required documentation in Section B of the General Permit.
4. The facility may not be reactivated until items 2 and 3 above are met, financial assurance for operation of the facility is submitted to and approved by the SWMD, and an inspection of the facility by representatives of ADEQ is performed.

Please contact Geof Little at (501) 682-0602 should you have any questions regarding the above information.

Sincerely,

Steve Martin, Chief
Solid Waste Management Division
