RE: Modification of Class I Landfills, Tontitown, Arkansas
 CSN 72-0144 Permit No: P97

Dear Mr. Holcomb,

This correspondence is to notify you that the Department of Pollution Control and Ecology has received a preliminary application from Sunray Services, Inc./USA Waste Services, Inc. for a major modification on approximately ten (10) acres at their Class I Tontitown landfill sites (Permit No's: 0123-SR-2 and 0162-SR-2). The landfills currently accept Class I MSW consisting of non-hazardous household, commercial, and industrial solid waste. The proposed modification is located in the N $\frac{1}{2}$ Section 23, Township 17 North, Range 31 West of the Fifth Principal Meridian, Washington County, Arkansas.

A determination has been made that your pre-application for a modification of Site 3 and Site 4 at the Tontitown Class I Landfill is administratively complete. Although your pre-application is administratively complete a metes and bounds description for the boundaries for the area to be modified should be submitted in addition to that of the overall site.

In accordance with the requirements of Regulation Number 22.305 of the Pollution Control and Ecology Commission as modified by Act 895 of the 1995 General Assembly, the Department has arranged to have

	ENGR	GEOL	GEO SUP	ENFORCE	INS SUP	OTHER	TEC MNG	CHIEF
INIT	_____	_____	<u>REL</u>	_____	_____	_____	<u>7/22</u>	_____
DATE	_____	_____	<u>10/14/96</u>	_____	_____	_____	<u>1/16</u>	_____

the Department will be sending you an invoice for this cost under separate cover.

On November 7, 1996 Solid Waste Division Geologist will begin conducting field investigations of the site. If a representative of your agency would like to visit the site, we will meet you at the landfill office located at 18200 Stutts Road, Tontitown, Arkansas at 10:30 A.M. The Department would appreciate any written comments concerning the technical suitability of the site within fifteen (15) days of the site visit.

Please address any comments or questions you may have to me here at the Department. If I can be of any assistance, please call me at (501) 682-0604.

Sincerely,

John R. Hill, Geologist
Solid Waste Division

Enclosure: Public Notice of Application

NOTICE OF PUBLIC MEETING

The Department of Pollution Control and Ecology, under provisions of Regulation 22, has scheduled a public meeting to discuss a proposed Class I, municipal waste landfill modification. A preliminary application has been submitted by Sunray Services, Inc. for a major permit modification for lateral expansion of approximately ten (10) acres to the existing permitted sites at their Tontitown Landfill facility. More specifically the property is located in the North half (N½) of Section 23, Township 17 North (T17N), Range 31 West (R31W) in Washington County, Arkansas.

The meeting will be held at the Springdale Rodeo Community Center at Highway 265 and Emma Avenue on November 7, 1996 at 7:30 P.M. The purpose of this meeting is to provide interested citizens with the opportunity to informally discuss the Solid Waste Permitting System as well as the proposed modification with representatives of the Solid Waste Division of the Department of Pollution Control and Ecology. Since this is not a formal hearing, no prepared statements are necessary and no official record of the proceedings will be made.
