Directorate of Environmental and Natural Resources Management

Arkansas Department of Pollution Control and Ecology
ATTN: Solid Waste Division
P.O. Box 8913
8001 National Drive
Little Rock, AR 72210-8913

Gentlemen:

The pre-application fee for Pine Bluff Arsenal's proposed new Class II Sanitary Landfill Facility has been mistakenly submitted to the Department before all of the application requirements have been met. The fee was paid by United States Treasury check no. 60237046 dated November 27, 1991. PBA is currently addressing the Regional Solid Waste Management Planning Board requirements and it is anticipated that a pre-application for the new facility will be submitted to the Department in March or April 1992. The check number will be referenced in the pre-application to indicate that the fee has been paid.

Request that the Department notify Mr. Phillip J. Vick at 543-2810 if some other arrangements are required.

Sincerely,

Wendell L. Portner
Director,
Environmental and Natural Resources Management
