Dear Mr. Tarkington:

The Arkansas Department of Environmental Quality Solid Waste Management Division (ADEQ-SWMD) staff has received your requests for waiver of financial assurance for the referenced facilities.

Determination has been made at this time that waiver of financial assurance of Waste Management yard waste compost and transfer station processing facilities is acceptable at sites that exist at Waste Management Landfills. Financial Assurance will not be waived at this time for facilities which are not located at the landfills. This decision is based on the information contained in recent requests and allowances made available by Regulation 22.906(a). This decision hereby waives financial assurance requirements at the transfer station at Tontitown while operating under the current general permit. Financial assurance at the Rogers, Van Buren and Razorback Transfer Stations is not waived at this time. Recent approvals also exist which waive financial assurance at the yard waste compost sites at Tontitown, Two Pine, and Jefferson County Landfills. The waivers for the compost sites will be considered annually. This determination is subject to review or revocation at any time with or without cause as determined by the Director.

If you have any questions, please call Bryan Leamons at 501-682-0601.

Sincerely,
