Tontitown Ar 72770

Sir,

The Waste Management Tontitown Landfill is currently in the process of renewing our Waste Tire Processing Facility Permit. At the current time we are not actively operating this facility for other than tires that we are using on the site ourselves. The current amount of tires being processed now is approximately 1 to 2 tires per month. The waste tire pile is still located just to the south side of the old Transfer Station at the south end of the landfill. The current volume of the pile is 4 tires.

Thank you for your help and support over the last year. If you have any questions over this item or any others please feel free to contact us at 361-2069.

Mike McCloud
Landfill Manager

I would like to extend my appreciation and thanks to the staff at A.D.E.R. Group - Waste Tire Program for their restructuring and simplifying the waste tire transporter license annual report and renewal application. It saved me a lot of extra work that I used to have to do.

Thank You.
