Re: Post Closure Care Certification
Pine Bluff Arsenal – Class 1 Landfill
Permit No. 0132-SR-1, AFIN No. 35-00116

Dear Mr. Robinson,

Permit 0132-SR-1 was issued to the Pine Bluff Arsenal on July 25, 1980 for construction and operation of a Class 1 landfill. The landfill stopped receiving waste on April 9, 1994. Closure activities were completed October 3, 1994 and the closure report submitted to ADEQ on October 12, 1994. The Solid Waste Management Division notified Pine Bluff Arsenal on November 4, 1994 that the closure was accepted and that the 2-year post closure period began on November 2, 1994.

Please be advised the post-closure care period has been completed for the Class 1 landfill and the Engineer’s certification has been placed in the operating record as required by Regulation 22, Section 22.1302 (f). A copy of the certification is attached.

Thus, we request that Permit 0132-SR-1 be terminated and the permit status be revised from active to void. If there are any questions regarding this submittal, please contact me at 870-540-2804, or Chuck Campbell (GBM & Associates) at 501-847-7077.

Sincerely,

Charlie Neel
Chief, Environmental Compliance Division
PROFESSIONAL ENGINEER'S CERTIFICATION

In accordance with Arkansas Department of Environmental Quality (ADEQ) Solid Waste Management Division Regulation 22, Section 1302 (f), a certification must be placed in the operating record documenting that post-closure care has been completed according to the approved post-closure plan for the Pine Bluff Arsenal Class 1 Landfill, ADEQ Permit No. 0132-SR-1. An inspection was performed by representatives of GBM & Associates on June 11, 2009 to verify the proper completion of the post-closure care period. Based on our examination of the record, inspection and discussion with the landfill owner/operator, it is my professional opinion that the facility has been maintained in accordance with ADEQ Regulation 22 and the facility post-closure care plan. This opinion and determination is contingent on the fact that all information supplied to the signatory authority as of the date of this certification is unquestionably accurate and provided in good faith.

Charles Daniel Campbell, P.E.
Arkansas Professional Engineer No. 6837
