Subject: Eco-Vista Compost NOI

Dave,

I just reviewed the NOI for the Eco-Vista Composting Facility. The NOI did not contain the FA calculation. I understand you requested a waiver for posting FA. Regulations require the facility to post FA and maintain FA until the site has completed closure. FA for the composting facility may be included in the cost estimates for the Class I Landfill. Either way, FA for closure of the compost facility must be posted.

Let me know if you have any questions.

Thanks,

Maria
