RE: Notice of Deficiency Eco-Vista Composting Facility Notice of Intent for Coverage under the General Permit
Permit Number: 0013-SCYW **AFIN: 72-00144**
Document Number: 63707 **Cross Reference Number: 63507**

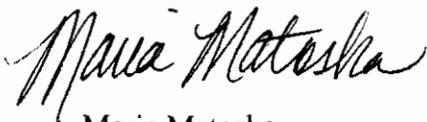

Dear Mr. Tharpe:

The Arkansas Department of Environmental Quality-Solid Waste Management Division has received and reviewed the Notice of Intent for Coverage under the General Permit submitted on your behalf by Shepherd Engineering & Design Company, Inc. The following deficiency was noted during the review:

1. The NOI did not contain the Financial Assurance calculation. Regulation 22 requires the facility to post Financial Assurance and maintain continuous coverage until the site has completed closure activities. Eco-Vista Composting Facility requested a waiver for posting financial assurance due to the compost facility being located at the Class 1 Landfill. Financial Assurance for the compost facility may be included in the cost estimates for the Eco-Vista Class 1. In any event, financial assurance for the composting facility must be calculated and posted. Please provide financial assurance calculations and updated FA documentation showing adequate financial assurance has been posted.

If you have any comments or questions, please contact me at (501) 682-0608.

Sincerely,

Maria Matoska
Permit Engineer
