Mr. Sadler,

In accordance with Contract Number 4600033394, SCS Aquaterra is submitting the Second Quarter Gas Monitoring Report summarizing monitoring activities performed on June 10, 2015 at the NABORS Landfill.

If you have questions or comments regarding these reports, please do not hesitate to contact us at (913) 681-0030.

Sincerely,

Dillon Baird, P.E.
Project Engineer
SCS AQUATERRA

Floyd Cotter, P.E.

Re: **Second Quarter 2015 Explosive Gas Monitoring**
NABORS - Class I Landfill
AFIN: 03-0051 Permit No. 0249-S1-R2, 0249-S4

Dear Mr. Sadler:

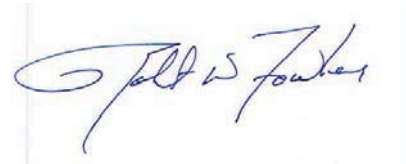

Chimney Rock Consulting (CRC) is pleased to present you with the results of the Second Quarter 2015 Explosive Gas Monitoring at the NABORS – Class I Landfill (Landfill). The Second Quarter Explosive Gas Monitoring Event was conducted on June 10, 2015 and consisted of monitoring the site perimeter Explosive Gas Monitoring probes GP-1 through GP-13, GP-14R, GP-15, GP-16R, GP-17, and GP-18R. In addition to these perimeter probes, the landfill office and scale house were monitored for Explosive Gas. It should be noted that GP-5, located on the southern boundary of the property, had methane readings above 100% LEL during the Second Quarter 2015 event.

Three (3) interior gas probes (GP-14, GP-16, and GP-18) which are not point of compliance probes were monitored for information purposes. Probe readings indicated methane was above 100% LEL at GP-14. High methane readings not exceeding 100% LEL were measured at GP-16 (90.5% LEL) and GP-18 (82% LEL).

As previously stated GP-14, GP-16, and GP-18 are interior gas probes and not point of compliance probes. GP-14R and GP-16R which are located along the property boundary to the north-northwest of GP-14 and GP-16 and GP-18R which is located along the property boundary to the west of GP-18 reported low levels of methane during the Second Quarter 2015 event.

The next required Quarterly Explosive Gas monitoring event for the Landfill is scheduled for September 2015. Please contact us if we can be of further service or if you have any questions concerning this report.

Sincerely,
