**RE: Approval – Site Walk and Recommendation Letter
Professional Services Contract #ADEQ005998
Solid Waste Landfill Post-Closure Trust Fund
DAMCO Inc. – Waste Tire Processing Facility Permit
Adjacent Tire Dam – Alternative End Use Project
Permit Number: 0022-SWTP; AFIN: 03-00208**

Dear Mr. Stoddard:

The Arkansas Department of Environmental Quality (ADEQ) currently holds a professional services contract (Contract #ADEQ005998) with EnSafe, Inc. for the execution of environmental assessments, and corrective action design and construction oversight related to closed landfills and tire processing facilities and disposal sites within the State of Arkansas. The professional service consultant is tasked to perform a Site Walk and Recommendation Letter at the DAMCO Inc. – Waste Tire Processing Facility Permit area and Adjacent Tire Dam – Alternative End Use Project area. The Site Walk and Recommendation Letter shall identify corrective actions to abate the negative environmental impacts and evaluate alternatives to determine the best approach to remedy the environmental conditions at the site.

The ADEQ – Office of Land Resources has received and reviewed the revised Scope of Work for the project, dated February 23, 2016, for the DAMCO Facilities referenced above. The SOW is hereby approved and the investigation shall begin in accordance with the scope of work provided.

If you have any questions regarding this correspondence please contact Bryan Leamons at (501) 682-0601.

Sincerely,

A handwritten signature in blue ink that reads "Tammara Harrelson".

Tammara Harrelson
Senior Associate Director
Office of Land Resources
