Subject: Fire at Eco-Vista Class 4 - September 13, 2022

Hello! There was a small fire at Eco-Vista Class 4 last night. At this time, I have limited information but will follow up with more details once the site has finished their investigation. WM technicians working at the hauling company noted the fire around 2200 hours and called the Tontitown Fire Department. Fire Department was on-site for observation and backup, but WM personnel extinguished the fire with dirt by approximately 2400 hours. The affected area was approximately 50 ft x 50 ft, and the source of the fire is unknown.

Thank you,

Jodi
