North Little Rock, AR 72118-5317

Re: Quarterly Inspection, AFIN 60-01071, Permit 0031-SCYW

Dear Ms. Davenport:

In response to your inspection of August 4, 2022, the following is a list of comments and corrective actions to be undertaken on the City of Little Rock's Compost Site:

Compost Site, Permit # 0031 – SCYW

- **Category 2, Regulation 806(a)(2): Adequate Composting Area Surface.** *The composting area is not sloped to prevent ponding in depressions.*
The depression areas have been filled in and graded off to prevent water ponding. There is no water ponding currently in the yard waste area.
- **Category 2, Regulation 806(a)(5); (b)(10): Odor, Noise, Dust, Vector & Litter Control.** *Litter fence is not secured along the bottom and allows litter to leave the compost yard.*
The litter fence has been tightened along the bottom to prevent litter from leaving the compost yard.

Thank you for your cooperation in this matter. If I can be of any further assistance please contact me at your convenience.

Sincerely,

Nathan Charles, PE
Solid Waste Engineer
