RE: Work Plan for Piezometer Abandonments Eco-Vista, LLC, Class 4 Landfill
Permit No: 0290-S4-R2; AFIN: 72-00144
Document Number: 83940 Reference Document ID: 83492

Dear Mr. Conrad,

The Division of Environmental Quality Office of Land Resources (DEQ) has received the Work Plan for Piezometer Abandonments for the Eco Vista Class 4 Landfill (Document ID: 83492). After review DEQ conditionally approves the work plan with the following comments.

1. DEQ suggests the use of bentonite to backfill the boreholes due to the excavation of the new class 4 cell, where the majority of the backfilled material will have to be removed in the near future.
2. In the report, please include the volume of the material used to back fill each borehole.

If you have any questions or need any additional information, please contact me at 501-607-7215 or travis.atwood@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink, appearing to read 'T. Atwood'.
