Mr Jones thanks as your co workers to coming for our town hall last Thursday. I've only lived in Tontitown since January of this year, less than 2 miles, I can set the mountain, smoke and FLAME IN MY BACK YARD, and yes the smells. I knew waste management was close when he bought but been blindsided by what the reality of that has been. I feel disrespected by having my cars ruined daily, turning windshield wipers on to see on Dowell rd, I has a fake Christmas tree in my drain ditch till March when I finally moved it. I went out tonight to try to convince a cow I don't own to not continue to eat the plastic bag that littered our property today. They are disrespectful in all regards to the community. The people of Tontitown are passionate and fact based on what the city wants I'm not understanding why we don't get a say. Tontitown can't grow as other towns in NWA with WM giving us all negatives. I keep going back to the gentleman's questions. You should always have a plan b, c, and d. If the landfill will be full by Jan 2024 shouldn't we be talking about the next plan? My father was a aquatic biologist for your department as soon as department was created over 20 years ago. I fully understand anytime due test show up in creeks it's effecting a whole

ecosystem of wildlife so it's already begun the damage we can document as scientist currently, unfortunately your not sure how much damage till years later or more. How long can waste management remain open in Tontitown? It's a honest queasy ion I don't know answer too. If it's full by 2024 and most last 50 years is t ir time to close up shop. WM is not welcome. On Memorial Day the day I got off from nursing to celebrate and remember veterans I was awakened at 4:48 in the morning of tracks trucks speeding down my street. So disrespectful to the veterans and tax paying citizens. Please put out the flame, noise, smells, endangering wildlife, possibly human life , destroying our ecosystem and the cleanliness of our community being covered in trash. We can and should not support W M in our backyards for a unknown time because other plans haven't been made. Please take into account all of the voted officials, representatives, fire chiefs, city planners, and citizens when we say enough.

Thank you

Dawn Evans
