**RE: NABORS Landfill  
Report for Dye Trace Investigation  
Permit No: 0249-S1-R2                      AFIN: 03-00051  
Document Number: 84718                      Reference Document ID: 83185, 83332, 83340**

Dear Mr. Janssen and Mr. McCullough,

On January 31, 2023, the Division of Environmental Quality Office of Land Resources (DEQ) approved a Dye Trace Investigation Work Plan for the NABORS Landfill (Document ID 83340). The approved work plan (Document IDs 83185 and 83332) was submitted with both Lakeshore Recycling Systems (LRS) and SCS Engineers names on the documents.

Section 6 of the work plan within Document ID 83185 states that:

*“A summary report will be provided at the conclusion of the investigation and will include the following elements:*

- 1) All dye analysis results;*
- 2) An identification of sampling locations where dye was detected;*
- 3) Other relevant data; and*
- 4) A discussion of the results.”*

DEQ has not received this report for the Dye Trace Investigation. It is our understanding that the last analysis of dye traps was in July 2023. Please submit the report within 15 days of receipt of this letter.

If you have any questions or need any additional information, please contact me at 501-682-0606 or [sadler@adeq.state.ar.us](mailto:sadler@adeq.state.ar.us).

Sincerely,

A handwritten signature in blue ink that reads "Bill Sadler". The signature is written in a cursive style and is positioned above a thin horizontal line.

Bill Sadler, P.G.  
Geology Supervisor  
Division of Environmental Quality  
5301 Northshore Drive,  
North Little Rock, AR 72118-5317
