ACTION TAKEN:	PHOTOS TAKEN: Yes	
<i>On 4/9/08 at 1100 I arrived at Ms. Corey's property. I looked at the water backed up on Ms. Corey's property and did not see any evidence of raw sewage. I also walked over to Depot Creek. There was some sediment and decaying leaves, there was no evidence of raw sewage in the creek or on Ms. Corey's property. I called Ms. Corey and told her I saw decaying leaves and sediment, but I did not see any raw sewage. I told her she can call AGFC and they could help her with the beaver dam.</i>
