TO: Anne Weinstein, Attorney, ADEQ

THROUGH: Roger Lawrence, Chief, Solid Waste Management Division, ADEQ

FROM: Scott McWilliams, Enforcement Coordinator, SWMD, ADEQ

DATE: September 8, 2010

SUBJECT: Site visit at property on Rocky Bottom Road, owned by Deverso Wright

---

On this date I accompanied Solid Waste Division Inspectors, Sheldon Hadley and Lori Burke, on a site investigation regarding a dump at the above described location. The purpose of this site investigation was to determine whether Deverso Wright (the property owner) had removed the solid waste that had been illegally disposed there.

We entered the site location at approximately 9:15 a.m. No one was present at the dump site. The weather was cloudy and rainy but not so bad that we had to reschedule. The affected area, in my estimation, was approximately 150' by 150' and the height was approximately 5 or so feet higher than the surrounding terrain. Other inspectors (on previous investigations) may have more accurately described the dimensions with use of laser rangefinders. The top of the fill area was covered with soil and some areas of scattered hay, presumably for erosion control and/or seeding. A walk of the perimeter revealed some exposed shingles and shingle wrap on the west, south, and east slopes of the fill. Also, I observed some roofing tar paper scattered about the edges. Inspectors Hadley and Burke took photos of the site. We exited at approximately 9:40 a.m.

Based on my observations (the exposed shingles and wrap and the roofing tar paper), I don't believe that all the solid waste has been removed from this unpermitted disposal site. It appears to have been simply covered with soil.

**Investigation Comments**

9-8-10 A joint inspection was conducted with Scott McWilliams and Lori Burke with the ADEQ Solid Waste Division. At the time of inspection the weather was rainy. Upon arrival at the site, it was noted that the area in question had freshly turned soil and no vegetation was present, there was however hay placed on a portion of the site presumably for erosion control and/or seeding of the site. During a close investigation of the site, it was also noted several random areas along the perimeter of the area were waste items consisting of mostly shingles remained or were exposed. Total visible waste was estimated to be approximately 10 cubic yards. The area was estimated to be approximately 150'x 220' in size and approximately 5' higher than the natural grade. There were also 4 plastic containers of unknown liquid noted that were leaking onto the ground at the edge of the non-vegetated area as well as a small waste pile of shingles. Without random excavation pits within the suspect area it is impossible to determine if the waste was removed, but with the remaining waste along the perimeter, it is believed that the waste or at least a portion of the waste was covered. Without considering the possibility of Mr. Wright covering the waste mass, it is my opinion that Mr. Wright continues to be in violation of the Solid Waste regulations due to the fact that visible waste items remain at the site.

**Investigation Comments**

I arrived at site on 2-16-10 at 1:00 pm. There was a locked iron gate preventing any entrance to property and no one onsite. I returned to site later the same day at 3:00 pm with same results.

On 3-3-10, I arrived at the location to conduct a joint investigation with James Goble (Pulaski County Illegal Dump Officer). We entered the property and noted a large pit area located at the back of property behind a barn being filled with shingles, lumber, 5 gallon tar/paint cans, cardboard, metals, plastics and household waste. It does appear that recent dumping has occurred since the previous investigations conducted in 2009. We talked to Ivan Towers (worker) on site and I talked to Mr. Wright by phone while leaving property. Mr. Wright admitted he was told by other inspectors to cease dumping activities at this location but he did allow some additional waste into site. I told Mr. Wright to cease dumping activities and start clean-up as previously directed. Will send certified letter.

I just spoke with Deverso Wright and he confirmed his address was 14713 Rocky Bottom Road.....I asked if it was Maumelle or NLR and he said he didn't know. He stated that someone had knocked his mailbox over for only 3-4 days but the postman was returning all his mail – he said AP&L had called him about their mail being returned. I asked if there was a PO Box that I could mail correspondence to and he said that Rocky Bottom Road is the only address he has. He confirmed that the mailbox is up now – do I send another letter to him (the USPS website indicates that 14713 Rocky Bottom Road is in the NLR zip code area)? Let me know how you wish for me to proceed.

Thanks!
