RE: Complaint Investigation  
AFIN: 12-00485, NPDES Permit No.: ARR000604

Dear Rick Thone:

On February 27, 2013 I performed an investigation of your pressure truck facility in response to a complaint. The complaint alleged that fluids were being allowed to flow into an adjacent ditch and that there was a large pile of paint cans. The investigation was conducted in accordance with the provisions of the Federal Clean Water Act, the Arkansas Water and Air Pollution Control Act, and the regulations promulgated thereunder. The following violation was noted:

1. At the time of the investigation it appeared that there were diesel spills around the diesel storage tanks from the refueling of trucks that had not been cleaned up. This is a violation of Part 4.6.6.2.C of your permit which states: Clean up spills and leaks promptly using dry methods (e.g., absorbents) to prevent the discharge of pollutants. Please see photographs 5 and 6 of 6.

The above items require your immediate attention. Please submit a written response to these findings to the Water Division Inspection Branch of this Department. This response should be mailed to the address at the bottom of the first page of the letter or e-mailed to [Water-Inspection-report@adeq.state.ar.us](mailto:Water-Inspection-report@adeq.state.ar.us). This response should contain documentation describing the course of action taken to correct each item noted. This corrective action should be completed as soon as possible, and the written response with all necessary documentation (i.e. photos) is due by **March 25, 2013**.

If I can be any assistance, please contact me at [saunders@adeq.state.ar.us](mailto:saunders@adeq.state.ar.us) or 870-424-3322.

Sincerely,

**Tip or Complaint:** 2 things: 1. empty trucks into big tank and it constantly overflows onto ground and run along greg sneed drive drainage ditch in front of residential houses on that road. 2. there is a big pile of empty paint cans(looks like paint cans) piled up by back fence and not sure if it is toxic or not. And if it rains it will cause it to run onto residential property. Concerned if it is chemicals running on to properties. Would like ground to be tested for chemical...have children in bare feet all the time in yard. Thank you

<b>Investigation Comments</b>			
2-19-13, I met with Danny Worsham, Safety Director for Pressure Trucks, Inc. and inspected the rusty paint cans near the back fence. Mr. Worsham stated that the paint cans were never used for paint but filled with clean sand to be used as weights. They used them to hold down plastic liner material at well drilling sites. The cans were rusting through and in poor condition. Worsham said they plan to dispose of the cans but had not got around to cleaning them up. He said he would get them cleaned up and placed in their dumpster next week. I requested a photograph of the cans after being placed in the dumpster. Mr. Worsham also stated that the trucks coming in and out of the yard were hauling clean water from their storage tank. No letter mailed at this time. I will wait until I receive conformation that the cans have been cleaned up and placed in the dumpster for disposal.

RE: NPDES Compliance Inspection dated 2-27-13  
AFIN: 12-00485, NPDES Permit No.: ARR000604

Dear Sirs:

On February 27, 2013 Mr. Sean Saunders, District 11 Field Inspector, found small diesel spills around the fuel tanks located on the Permit site.

The spills were recent and were cleaned up immediately using proper methods of dry absorbents, removal of affected soils and application of new gravel, where appropriate.

Attached are photos of the sites after clean up.

We have also relocated our Rain Gauge on the West fence to the South of the Fresh Water holding tank, updated site map attached.

Sincerely,

Rick Thone  
President

RE: Inspection Response  
AFIN: 12-00485, Permit No.: ARR000604

Dear Rick Thone:

I have reviewed the response pertaining to my 2/27/2013 inspection of the Pressure Trucks, Inc. The information provided sufficiently addresses the violations referenced in my inspection report. At this time the Department has no further comment concerning this particular inspection. Acceptance of this response by the Department does not preclude any future enforcement action deemed necessary at this site or any other site.

If we need further information concerning this matter, we will contact you. Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 870-424-3322 or you may e-mail me at [saunders@adeq.state.ar.us](mailto:saunders@adeq.state.ar.us).

Sincerely,
