Re: Termination of NPDES Permit Number AR0039039 – AFIN 21-00053

Dear Mr. Sandidge:

As requested in the letter dated October 1, 2006, you are hereby notified that the subject NPDES Permit has been canceled. This cancellation is effective as of the date of this letter.

Any resumption of the discharge or any new discharge without a permit will be in violation of the Clean Water Act. Should you again propose to discharge any pollutant from this facility to waters of the State, it will be necessary to file a new application. Any permit issued as a result of such reapplication will contain conditions and limitations consistent with the situation and with the laws and regulations in effect at the time, irrespective of any previously issued permit.

If you have any questions concerning this matter, please feel free to contact the NPDES Branch at (501) 682-0623.

Sincerely,

Martin Maner, P.E.

Subject: McGehee School - Delta Campus Permit Termination Request

We received a request to terminate AR0039039 for the McGehee Public School-Delta Special School District campus. They have shut down that campus and have requested that the permit be terminated "as of October 15, 2006." According to the request letter, "the plant will be shut down, emptied and sealed before such date so no further discharge can occur."

If you need a copy of the request letter or if you have any questions or concerns, please let me know. Unless we hear otherwise, we'll forward this response to Martin on or about 10/13. We have dated the draft letter for the following Monday (10/16).

Thanks,

Chris

Dear Mr. Shafii:

Due to the closure of the Delta Special School District campus at Kelso-Rohwer, we will no longer need to discharge wastewater from our sewer treatment plant. This letter is to inform you of the sewer treatment plants closure and to request that our NPDES Permit #AR0039039 be terminated as of October 15, 2006. The plant will be shut down, emptied and sealed before such date so no further discharge can occur.
