**SUBJECT:** Notification of Waste Excavation (40 CFR 61.154(j))  
Landfill Gas Extraction Systems Expansion  
Eco-Vista (Tontitown) Landfill  
Permit # 1884-AOP-R0                      AFIN # 72-00144

Dear Mr. Rheaume:

WM Eco-Vista (Tontitown) Landfill (EVLFF) will be contracting for the installation of additional gas extraction wells, and associated header and lateral piping for purposes of enhancing the existing gas collection system.

This letter provides notification of upcoming construction activities involving drilling where asbestos-containing material (ACM) might be encountered pursuant to 40 CFR 61.154(j). Drilling is scheduled to commence during the first week of August 2008. We will have an Arkansas Licensed asbestos inspector on-site during drilling activities where ACM could be encountered.

EVLFF will provide a report that documents steps taken to protect human health and the environment if ACM is encountered during drilling activities. Should you have any questions, or require additional information, please call me at (501) 982-7336.

Sincerely,  
**Waste Management**
